MANCHU LEADER DEAD

His Own Troops Revolted.—Nanking Viceroy Committed Suicide.—Amoy Captured.

Peking, Nov. 7.—General Wu, the brilliant military officer recently appointed Governor of the Shan-Si province, was assassinated this morning by Manchuk soldiers who claimed Wu was secretly betraying the Manchus.

No Fighting. Reports that Peking has fallen into the hands of revolutionists was without foundation. There was no fighting whatever here. There is no indication that Peking is endangered.

Others Killed. The consular reports state that several other military officers were assassinated and according to the foreign railroad officials the Manchus and Chinese soldiers fought a regular engagement in which fatalities were numerous. The national assembly has formally appointed Yuan Shih-kai as president.

Joins Rebels. Wu Ting-fang, former minister to the United States, in a statement to the Associated Press announces that he has joined the movement to establish a republic in China.

Understands Plans. Wu Ting-fang said he fully understood the reform movement might lead in any direction, even to anarchy, but the people of China favor a change. He believes a republic is feasible.

Amoy Threatened. Amoy, Nov. 7.—The fall of Amoy before the revolutionists is imminent. The consuls have appealed to their governments to send vessels.

Albany Sails. Shanghai, Nov. 7.—The American cruiser Albany leaves at once for Amoy.

Ends His Life. Nanking, Nov. 7.—The Viceroy of Nanking committed suicide tonight and the situation is most serious. The viceroy's instructions from Peking ordered him to peacefully surrender. The commander of the Manchuk troops refused to obey the order and a panic prevailed.

Is a Mistake. Practically, Wu's assassination was a capital mistake for the Manchus. In two ways. It will outrage the rebels and it deprives the throne of a true supporter. Wu was a revolutionist up to the time of the imperial edict granting constitutional government to China. He favored these concessions.

Was a Sleep. The governor was asleep in his tent at the commencement at Shikha Ching when killed. Thirty Manchuk troops rushed in and cut him to pieces. The entire thirty were later beheaded by the governor's followers.

Are Organized. The American and British legations at Peking are known today to be planning joint arrangements for protecting foreigners in the event of an outbreak. Foreigners are flocking to the standard of Robert R. Galloway, ex-football player of Princeton, now head of the Peking Y. M. C. A., who has undertaken the organization of an Anglo-American company of unofficial police.

NEW PRISON WARDEN RESIGNS POSITION

Daniel Woodward of Waupun Prison, Recently Appointed, Gave Resignation Today.

Madison, Wis., Nov. 7.—Warden Daniel Woodward of Waupun today resigned from the state board of control. His place is sought by upwards of a hundred candidates. It pays \$2,500 yearly. Among the known candidates are Assemblyman E. E. Hight of Columbus, Chris. Johnson of Mukwonago, and former Assemblyman W. H. Turner of Columbus.

TIPPECANOE FOUGHT HUNDRED YEARS AGO

Lafayette, Ind., Nov. 7.—On the banks of the Wabash river, about seven miles up the stream from the site of the present city of Lafayette, there was fought one hundred years ago today the celebrated battle of Tippecanoe, which furnishes one of the most thrilling chapters in American history. In the historic conflict Gen. William Henry Harrison and his little frontier army administered a crushing defeat to the hostile Shawnee Indians led by their able and celebrated chief, Tecumseh. The consequence of the victory was to put a virtual end to the Indian wars in this section.

Today the centennial was celebrated with a pageant and historic exercises held on the battlefield, which is a state reservation and where an imposing monument commemorating the battle was erected several years ago. Official representatives of Indiana and the neighboring states, also of the Daughters of the American Revolution and other patriotic societies, took part in the celebration.

JURY IS EMpaneled FOR TRIAL OF LOUIS HOFFMAN

Port Washington, Nov. 7.—A special panel of 150 jurors was called today in the trial of Louis Hoffman, the Cedarburg butcher and alleged murderer of his son, Carl, aged 12. It became apparent today that Hoffman's main defense may be insanity.

MRS. VERMILYA MAY BE SENT TO ASYLUM AFTER EXAMINATION

Coroner Hoffman Has Ordered Examination For Nephroptosis on Woman Held For Nine Murders.

Chicago, Ill., Nov. 7.—That Mrs. Vermilya, alleged poisoner of nine persons, is a sufferer of nephroptosis, a rare mental malady, traits of which manifest an unnatural abnormal attraction toward the dead and that she was the victim of a disordered mind, was the theory today brought by Coroner Hoffman.

He stated today he had ordered an examination of her by several physicians to determine whether she suffered from this disease. If they find her so afflicted, Hoffman said he would ask attorneys to examine the woman with a view to her commitment to an asylum for criminal insane.

In the hospital of the county jail Mrs. Vermilya maintained her attitude of indifference to the surroundings. Letters and postcards found in her departments are said to have dealt with what grew into religious visits to morgues, undertakers' shops and haunts of death.

TAFT IS VOTER AT CINCINNATI TODAY

President Spends Seven Minutes Marking Ballots And Operating Machine Amid Fire of Cameras.

Cincinnati, Ohio, Nov. 7.—President Taft today hobnobbed with Governor Judson Harmon of Ohio, who may be the choice of the democratic party to oppose the president in the election of 1912.

After the president had wrestled with the involved machinery of the Cincinnati municipal election, had worked nine ballots and worked a voting machine in an effort to vote a straight republican ticket, he returned to his brother's house.

The president took seven minutes to mark his many ballots and he did his voting under the fire of a battery of cameras and surrounded by a big squad of newspaper men. A luncheon with the Manufacturers' club, an address to the society for the judicial settlement of international disputes, and a dinner with the Commercial club will complete the president's stay in Cincinnati. Tonight he will receive one of the hottest political fights Cincinnati has ever seen.

The betting today shifted against the Cox republican ticket, and the democrats and their independent republican allies were confident of victory.

DENOUNCES SCHEME OF NATIONAL BANKS

Secretary of Treasury MacVeagh Denounces Proposed System Should Not Be Tolerated.

Washington, D. C., Nov. 7.—"Something that the American people would not tolerate," was the characterization today by Secretary of the Treasury MacVeagh of the scheme whereby national banks propose to hold the stocks of other banks through the medium of a holding company. The secretary declared this would place too much power in the hands of a few men. The Aldrich plan must be modified in many respects before he would approve, declared the secretary.

MARSHALL ORDERED TO TAKE THE BOOKS

Federal Judge at Indianapolis Takes Steps to Secure Union's Books Deeded Grand Jury.

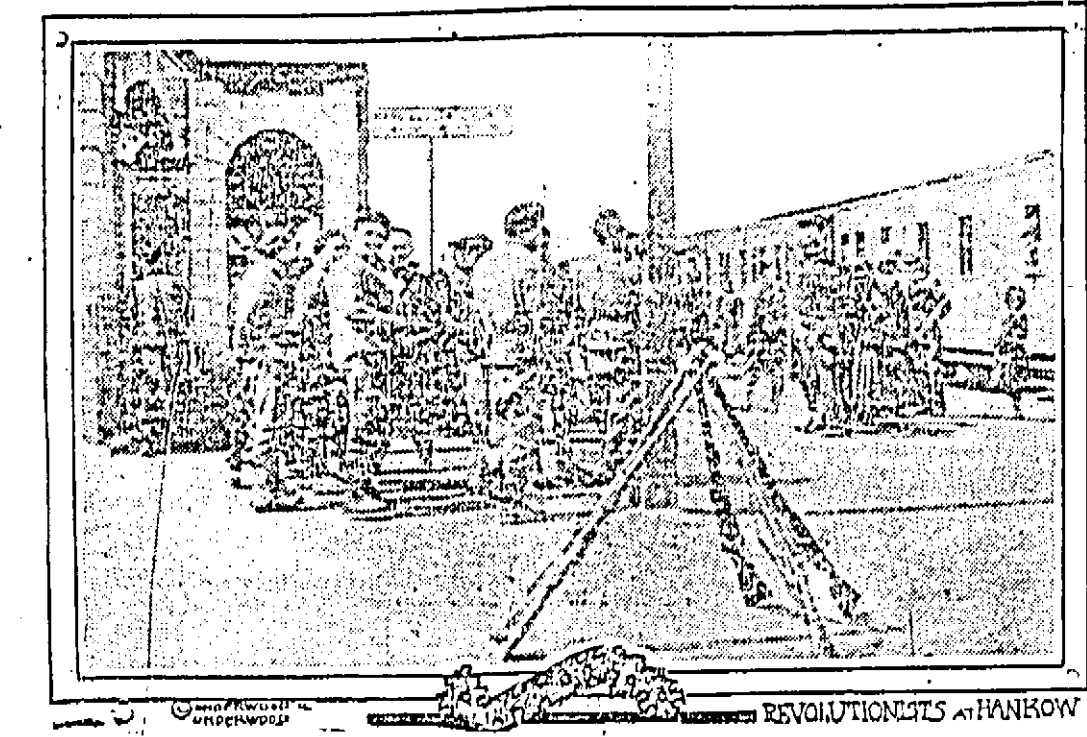

Indianapolis, Ind., Nov. 7.—Federal Judge Anderson today ordered the federal marshal to take possession of certain books of the International Bridge and Iron Workers' Union to which the federal jury had been deeded access.

On the order of United States Judge Albert A. Anderson, here today, the United States marshal went to the suit of the Indiana State Trust company and obtained the records, placing them in the hands of the United States grand jury, which is investigating the dynamite cases. With an investigation into the dynamite charges involving the McNamara brothers as the most important task confronting them, the United States grand jury met here today. The return of Detective William J. Burns to Indianapolis and his conferences with the federal officials, indicated that he was giving these government authorities information to be presented to the federal grand jurors with a view of obtaining the indictment of the McNamara brothers for alleged criminal violation of the federal laws governing the transportation of explosives.

IS CONFIDENT THAT HE WILL BE FREED

Accused Murderer, Rev. Richeson, Certain That Jury Will Acquit Him.

Houston, Nov. 7.—So confident is he that he will be acquitted of the charge of murdering Miss Linnell, Rev. Charles V. T. Richeson has planned to marry Miss Violet Edmunds, his helpmate, and become a missionary in foreign fields.

Miss Edmunds has been firm in her belief of the innocence of the pastor and it is understood that she and the members of her family are anxious for the marriage to take place as soon as Richeson is freed. If he is acquitted, the pastor will tell his friends that no matter what the jury decides, he realizes that he would be fully for him to attempt again to preach in this country. For that reason he plans, if he is acquitted, to go either to China or Africa. Miss Edmunds, as his wife, would accompany him, he is said to have confided to his friends.

Richeson was to have been arraigned Monday at the request of Congressman Albert Orr (Texas), senior counsel for the prisoner, the arraignment would be postponed until next Monday.

Famous Detective in Indianapolis on Opinion.

Indianapolis, Ind., Nov. 7.—After studying the mysterious death of Dr. Helen Kabe, noted woman physician, found at her throat cut, W. J. Burns, famous detective, today stated he believed the woman committed suicide. Burns is here in connection with the McNamara cases.

ITALIANS ADVANCE FOR A NEW ATTACK ON TURKISH FORTS

Reinforcements Received From Italy Aid in Bloody Conflict—Terrible Tales of Cruelties Related.

Tripoli, Nov. 7.—Reinforced by the arrival of ships bringing fresh troops from Italy the Italians undertook an advance at 7:45 a. m. today upon the Turkish forts surrounding the city. They were supported by a heavy fire from ships in the harbor.

Berlin, Germany, Nov. 7.—Herr Gotthard, the Lokal Anzeiger's correspondent with Gen. Cavanagh's army in Tripoli, who with Francesco McCullough of the New York World and other correspondents, returned his papers to the Italian commander and left Tripoli rather than remain a helpless witness to the brutalities.

Tells Horrible Tale. He telegraphed his paper from Malta retelling the horrible story told by McCullough of the slaughter alleged to be in progress in the beleaguered city.

Constantinople, Nov. 7.—An Italian cruiser bombarded the town of Akabab in Arabia, Sunday, sinking the Turkish gunboat Halid. The second officer of the gunboat was killed but the others escaped.

Following the Italian order to clear the roads of its native population, Gotthard says, as did McCullough, the soldiers remorselessly chased men, women and children—sick, crippled and blind—to the open and shot them like rabbits.

No officers higher than a lieutenant was present during the butchery nor was General Cavanagh at hand when any of the shooting occurred. There was not a semblance of court martial, Gotthard adds, nor did the soldiers wait orders from their officers before shooting down the wretched Arabs.

He referred to specific instances of the slaughter with sickening detail.

GAIN FOR MILLERS IN THE NEW RULING

Treasury Department Decides That Dealers May Receive 99 Per Cent Drawback of Duty With Conditions.

La Crosse, Wis., Nov. 7.—The Treasury department's ruling on the drawback on wheat importations which grants the millers of the northwest almost everything they wanted, has been received here. Under the ruling millers receive a drawback of 99 per cent of the duty paid on imported wheat provided all flour and by-products are exported. If the flour only is exported then the drawback will be only pro rata to the value of flour and by-products.

Regardng "For Rent" Wants

When you write a For Rent Ad tell the facts about the apartment, flat or house you wish to provide a tenant for. Make your description so concise and complete that it will tell all about the property that you are describing. Keep these points in mind:—location, arrangement, the number of rooms, style of decoration, kind of bath and plumbing, heating arrangement. Make them a part of the Ad. It's always well, too, to mention the rent. Make it possible for the readers of a For Rent Want to see in their mind's eye a complete description of the flat, apartment or house you have to rent.

FATHER OF JOHN D. ROCKEFELLER DIED OVER A YEAR AGO

Fact of Death Which Has Been Kept Family Secret Became Known Today.

Cleveland, O., Nov. 7.—The Cleveland Press today says that William Rockefeller, father of John D. and Wm. Rockefeller, has been dead since a year ago last May because known from sources within the family. The mysterious elder Rockefeller was living in New York state. At the time of his death he was close to 100 years old.

The same secrecy is now being maintained regarding his grave as surrounded his retreat in the latter years of his life.

John D. Rockefeller is fearful that should his location become known, the grave would be despoiled of the body by ghosts seeking to extract ransom.

INTEREST IS SHOWN IN WISCONSIN LAW

Inquiries Come From Foreign Countries Asking If Non-Residents Can Take Out State Insurance.

Madison, Wis., Nov. 7.—Interest in Wisconsin's new law for state life insurance has extended to foreign countries, even to islands in the South Seas. From Australia has come a letter to State Insurance Commissioner Elmer, inquiring if the writer, a resident of that country, can take out a policy in Wisconsin's state insurance. Similar letters come from Mexico, Canada, Iowa and other states. Of course, their applications had to be negative, the benefits of the law being only for residents of Wisconsin.

The state department has received letters of inquiry from the government of Montevideo, which is considering a plan of state life insurance. It is said that Montevideo is planning its law after that which is now pending in the parliament of Italy, where it has already passed one house.

The Wisconsin department is at work on tables of rates and forms of policies which will be issued next year. It will be impossible to issue policies this year, as the preliminary work is entailing a vast amount of statistical labor.

ITALY DISCOURAGED OVER PROSPECTS OF HOLDING TRIPOLI

Turn That Turkish War Has Taken Is Not At All Satisfactory to the Government.

Nice, Italy, Nov. 7.—That the Italian government is thoroughly discouraged at the turn of affairs in the war against Turkey and would be overjoyed to find a way of withdrawing, is made clear by messages received here from Rome.

Taking in account Turkey's naval weakness and convinced that the Tripolitan coast garrisons were too feeble to put up more than the most pretense of resistance, the Giolitti ministry undertook the seizure of the province thinking it would be an easy affair and that, in the popular enthusiasm it would create, the anti-militarists and anti-monarchists' parties outcries would be drowned.

Instead of winning overwhelmingly with scarcely the loss of a man as it had expected, the government is now aware, though the masses only suspect, that Italy has met with something very like serious disaster. The roll of Italians killed is already long. General Canova's army in Tripoli is precariously situated. It has lost ground since it landed. The Turks and Arabs are pressing it hard. Cholera is decimating its ranks. The reinforcements it is necessary to keep sending constantly from home are increasing the popular conviction that something has gone frightfully wrong. The anti-militarists and the anti-monarchists are clamorous. Now comes the threat of intervention by the powers on the ground that the Italian campaign is being so barbarously waged that the world cannot look on passively.

With every day's continuation of the struggle the danger becomes greater that Italy will learn in what a desperate venture it has plunged in. The facts have only been suppressed thus far by such censorship as modern times has never known. They are sure to become public property before long. When that happens, not only the cabinet, but the throne may be in danger. On the other hand, to admit defeat would precipitate local trouble which the government dreads not face. It is certain that a fresh force of from 15,000 to 25,000 is being selected to be dispatched from Naples to reinforce the army in occupation at Tripoli.

What is happening in Tripoli at the moment is not known. At last accounts a fierce artillery battle was raging between the Italians inside the town and the Turkish and Arab forces who surround it on every side. Amount latest dispatches is told Turkish receipt of the season's port of terms with 500 Italians killed and the entire garrison taken prisoner.

NORTH DAKOTA BOY TRIED FOR MURDER

Accused of Shooting With Fatal Results, Frank Ross, Foreman of His Father's Farm.

Hillburo, N. D., Nov. 7.—The case of McClain Cooper, the "Trail country" youth, who last summer shot Frank Ross with fatal results, was called today for trial. Ross was foreman of the farm owned by the Cooper boy's father. The shooting resulted from a quarrel over who should direct affairs in the absence of the elder Cooper.

DEFENSE EXERCISED BY JUDGE'S ACTION

Attorneys for McNamaras Dissatisfied With Wide Latitude Allowed Attorney Morton for State.

Los Angeles, Nov. 7.—That sensational developments in the McNamara case are imminent was indicated by the attitude of the court and attorneys when the trial was resumed today. The defense is extremely exercised over the wide latitude permitted by Judge Bordwell to Deputy District Attorney Horton, in trying to eliminate George W. Morton, an aged veteran, who professed socialism. Morton was being interrogated by Horton this morning.

State is Sustained. One of the most bitter fights since the opening of the McNamara murder case was lost by the defense's attorney when Judge Bordwell sustained the state's challenge of George W. Morton, an aged Civil war veteran, who professed sympathies with socialism.

HOW TO ELIMINATE MIDDLEMEN'S PROFIT

Conference is Held at Madison Today to Discuss Marketing of Farm Products.

Madison, Nov. 7.—A committee of the state board of affairs, including President Van Hise of the University of Wisconsin, met with Governor McGovern today to discuss marketing farm products so that the farmer will not be forced to share his profits with middlemen. The board will employ an expert to outline a definite plan.

JUDICIAL ELECTION STIRRING CHICAGO; OTHER FIGHTS ON

Chicago Citizens Vote For Ten Superior Court Judges—Democrats Claim Another Massachusetts Victory.

Chicago, Nov. 7.—Reports of various state elections held today show a variety of weather. In portions of the east it was threatening rain, while in the west the conditions were generally favorable.

State officers will be chosen in Massachusetts, Maryland, Kentucky, New Mexico. The latter state elect their first governor.

In Massachusetts the tariff is the leading issue. In Illinois twenty cities and towns are voting on the local option question.

Chicago is voting on one circuit and ten superior court judges and unusual attention is attracted to this contest by the allegations of attempted fraudulent registration.

In Gotham. New York, Nov. 7.—Members of the lower house of the assembly will be chosen today. To maintain their supremacy in the assembly the democrats must re-elect in 35 out of the 150 districts. In New York City Tammany is fighting a fusion of republicans, independents and Hearst followers.

In Massachusetts. Boston, Mass., Nov. 7.—Republicans claimed the state for Louis Frothingham by 35,000 and Governor Eugene N. Foss said he would be re-elected by 50,000 in the gubernatorial elections at noon today. Boston, normally democratic, holds the balance of power. Voting is heavy.

In Pennsylvania. Pittsburgh, Pa., Nov. 7.—Elections to all county offices and the judiciary are being held throughout Pennsylvania. The Socialists claim the party's increase will be large. There is little general interest.

Claim Landslide. Boston, Mass., Nov. 7.—At 3:07 this afternoon Chairman Hittfield, at republican headquarters, publicly declared the returns up to that time showed a Frothingham landslide. Chairman McDonald at democratic headquarters at the same time said Foss' plurality might not be as great as expected yesterday but that Foss surely would win.

Outcome Uncertain. Santa Fe, N. Mex., Nov. 7.—Both republican and democratic territorial chairmen, admitted that the outcome of today's state election, the first in New Mexico, is uncertain. Democrats early claimed the election of McDonald for governor by about 2,000, asserting that the American vote will be cast against H. P. Durson, the republican candidate, who is of Spanish descent.

The republicans insist Durson will pull through by a comfortable plurality, and they are claiming the legislature overwhelmingly.

Test in New Jersey. Jersey City, N. J., Nov. 7.—A test of Gov. Woodrow Wilson's strength in New Jersey based on his personal appeal is seen in today's election in Trenton and Mercer counties, which are voting on three referendums in addition to a legislative and county tickets. Both sides claim victory.

Foss Loses Somewhat. Avon, Mass., Nov. 7.—Governor Foss carried this town today with a vote of Foss 75, Frothingham 35. Last year the vote was Foss 201, and Draper 104. In Maryland. Baltimore, Md., Nov. 7.—The gubernatorial race between Arthur Gorman, democrat, opposing Philippe Lee Goldsboro, republican, was the big issue in today's elections in Baltimore. The democrats claimed victory at noon.

AGED EDGERTON MAN DIES AT MIDNIGHT

Robert Attlesay, One of Early Settlers, Passed Away as a Result of Heart Failure.

[SPECIAL TO THE GAZETTE] Edgerton, Nov. 7.—A dark gloom came over this city through the sudden death of Robert Attlesay, which occurred at midnight last night. As previously as well as usual he spent the evening at home, George Wilson, a stepson, being with him. About 8:30 he retired and an hour later, when Mrs. Attlesay and Mrs. Wilson came home, he was still awake and left his bed for a few moments, making no complaint whatever as to illness.

Heart failure is the cause of his death, having been afflicted with heart trouble for some time. The sudden death is no surprise to the family. He was in his 77th year, and numbered among Edgerton's oldest members. He is also one of the oldest members of the Masonic, Odd Fellows and Eastern Star orders of this city in which he was ever interested.

The funeral services are announced for Thursday afternoon at two o'clock at the Congregational church.

ville Wholesale Company has been adjourned until next Monday. The case of Hugo Brothers Company versus the Josephine Kommett Estate for a month.

KILLED AND INJURED MONTH OF OCTOBER

List Recently Completed Shows Decrease Over Corresponding Month of Last Year.

The list of killed and injured in the various branches of the railroad service for the month ending Oct. 31, has just been completed, and as compared with the corresponding month of the year 1910, it shows quite a decrease. The North-Western road, the past year, has been more careful regarding the dangerous practices indulged in by their employees, and from time to time issue bulletins, which are illustrated, showing the many different ways in which an employee can be killed or injured if due care is not exercised. With a constant reminder like these bulletins, the employees are becoming more careful and in that way the mortality list has been on the decrease for some time past. Wrecks, collisions and derailments are, as a rule, unavoidable, and, as the list shows, most of the accidents and deaths have been from these causes. For the month ending Oct. 31st, the employees killed, while in the service, in number 25, while 178 were injured. Those killed in switching service, one of the most dangerous of all, is only 11, while the injured employees were 41. Some were killed in station service. Just month but forty-nine were injured. Three truckmen were killed and 123 were injured; no bridegroom were reported killed, although 21 were injured; no one was killed in the car reporting department or inspection department, thirty-four being injured. The past month has been a record breaker in regard to the low list in accidents in the many roundhouses and shops where accidents are most frequent. Last month there was no one killed, and but 86 injured, which is considered a very good record.

In other employment, outside of the ones mentioned above, no one was killed and thirty-two were injured. This means that this list is also making a remarkable showing, which is a great credit to the Chicago and North-Western company.

The total killed and injured employees for the month is six killed and five hundred and forty-six injured, and being compared with the month of October, 1910, it shows a decrease in both fatalities and accidents.

The list given for last year, the corresponding month, shows that fifteen were killed and that seven hundred and twenty met with injuries.

Three extras were ordered out this morning. Engineer Braubie and Fireman Munkle taking engine 1494, with freight, with their destination as Burlington. Engineer Susken and Fireman Smith, with 1409, to Chicago. Engine 880, with Engineer Knippie and Fireman Grabowski in charge, a freight run to Fond du Lac.

Engineer Bastron and Fireman Edwards are handling 685, on the switch job down town today.

Engineer Tallmadge is still on the sick list and Engineer Starritt is relieving him on Engine 191, the new switch engine recently put to work in the yards here.

Fireman Pat Davey is firing 194 today.

Helper Engine installed: On account of the heavy traffic on the local road, the North-Western has installed an engine which will be used exclusively as a "pusher" to help the heavy freight trains over the grade which starts at the depot here and extends nearly to the poor farm switch. The trains always have a hard time making this grade and the installing of this engine will greatly facilitate the more rapid handling of the freight traffic on the road.

Conductor Purdy is on the helper crew today.

Fireman Wilkinson is on the Sunset Limited today.

Fireman Sage of Chicago has taken runs 541, 541, by bulletin and will start work here immediately.

DO RAPID WORK IN FINDING LOST DOG

Chief Appleby Restores Animal to Owner That Was Taken From City by Travelling Salesman.

Within less than a day from the time he was notified of its disappearance, Chief of Police Appleby was able to restore to its owner, Mr. Merrick of Prairie avenue, a fox terrier which had been taken to Fond du Lac by a travelling salesman. The dog had been missing since Sunday, October 29, and Mr. Merrick thought it stolen, but later found it had been taken from the city by a travelling man who had been informed it was a stray animal without a home. F. G. Kimball was the salesman's name, and through inquiry Chief Appleby found that he had gone from Janesville to Madison, and from there to his home in Fond du Lac. Chief of Police Downing of that city was informed of the circumstances and when Mr. Kimball was made acquainted with the situation he immediately turned the dog over to the police. It was shipped to Janesville on the next train and arrived here at 12:45 last night.

BEGAN FLUSHING OF SEWERS YESTERDAY

Will Not Flush Entire System But Only Those Main Which are in Need of Immediate Attention.

Sewer flushing was started yesterday, the mild weather and the rain making the day especially favorable to the work in hand. Superintendent Ilyzer of the Water Company stated this morning that Street Commissioner Wilkins had cleaned out three mains yesterday. The latter, in accordance with the direction of the Water Company, is keeping them informed as to where he has been flushing so that they can send men to drain off the hydrants and pack them when he is finished. The flushing will probably be completed today or early tomorrow if the weather continues favorable. The entire system will not be flushed, but only those mains that are in need of prompt attention.

It is customary to flush the sewers once during the summer it was not done last season.

ACCIDENT IS FATAL TO WILLIAM KINES

Young Man Who Was Accidentally Shot a Week Ago, Died This Morning at Mercy Hospital.

After two amputations had been performed in an endeavor to save the life of William Kines, who accidentally shot himself in the foot while hunting in the vicinity of the stone crusher plant last week Tuesday, Oct. 31, his condition continued to grow rapidly worse until his death occurred at six o'clock this morning at Mercy Hospital.

The injuries were not considered serious at first and it was thought that his member could be treated without amputation. Infection set in, however, and two operations were performed but failed to save his life. Mr. Kines was born in Fox Lake, Ill., thirty-one years ago. Soon after attaining his majority he located at Salem, Ohio, where he was married several years ago. He came to this city about a year ago, and in his short residence here enjoyed the admiration of a large circle of friends. He was held in the highest regard by all who knew him and had possessed those whole-souled qualities which marked him as a genuine friend.

For several years he has been engaged as a travelling salesman for Steele, Wedeles and Company of Chicago, and has been eminently suc-

cessful in his work. He had contemplated leaving his firm, however, and had been engaged by the Janesville Wholesale Grocery company as a travelling salesman and would have assumed his duties yesterday. He was an earnest worker and through his perseverance was able to secure the best results.

He leaves besides a wife and small daughter, his mother, who resides at Waukegan, Ill.; one sister, Mrs. Robert Fulton of Waukegan; two half-brothers, C. E. Shultz of Waukegan, and B. C. Shultz of Los Angeles, Cal.

Funeral services will be held tomorrow at three o'clock at the residence in the Calvin flats on East Milwaukee street. The remains will be shipped to Salem, Ohio, for interment.

OBITUARY.

Mrs. Edward Holland. Mrs. Edward Holland, a sister of Edward Brown, living at 420 South Highland street, this city, died yesterday at her home in Rockford. Besides her brother she is survived by a husband and daughter. The funeral services will be held in Rockford and the remains will be brought here for interment tomorrow upon.

Four Prisoners Released: Henry Walker and Fred Kelly, who have been serving fifteen day sentences in the county jail, were released and Stue McDonald, who was in for forty days, has been released. Monday morning Arthur Genoux was released, leaving a total of twenty-two boarders still at the county jail.

We Get a Slap

The big coffee trust, made up of Brazilian growers and American importers, has been trying various tactics to boost the price of coffee and get more money from the people.

Always the man who is trying to dig extra money out of the public pocket, on a combination, hates the man who blocks the game.

Now comes a plaintive bleat from the "exasperated" ones.

The Journal of Commerce lately said: "A stirring circular has just been issued to the coffee trade." The article rather says:

"The coffee world is discussing what is to be the future of coffee as a result of the campaign of miseducation carried on by the cereal coffee people. We have before us a letter from one of the largest roasters in the South asking what can be done to counteract the work of the enemies of coffee."

"The matter should have been taken up by the Brazilian Gov't. when they were completing their beautiful vorization scheme."

Then the article proceeds to denounce Postum and works into a fine frenzy, because we have published facts regarding the effect of coffee on some people.

The harrowing tale goes on.

"When a few years ago everybody drank coffee, several cups a day, now we find in every walk of life people who imagine they cannot drink it. (The underscoring is ours.) Truly blacksmiths, carpenters, laborers and athletes have discontinued or cut down the use of coffee; as there is not a person who reads this and will not be able to find the same conditions existing among his own circle of acquaintances, is it not well for the Brazilians to sit up and take notice?"

Isn't it curious these "barly" strong men should pick out coffee to "imagine" that about? why not "imagine" that regular doses of whiskey are harmful, or daily slogs of morphine?

If "imagination" makes the caffeine in coffee clog the liver, de-

press the heart and totally tear down the nervous system, clinging on one or more of the zones of broken-down nervous systems, many people don't know.

But it remained for the man who has coffee, morphine or whiskey to sell, to have the supreme nerve to say: "You only imagine our disorders. Keep on buying tea me."

Let us continue to quote from his article.

"Notwithstanding the famous increase in population during the past three years, coffee now has an appalling decrease in consumption."

Then follows a tiresome lot of statistics which wind up showing a decrease of consumption in two years of, in round figures, two hundred million pounds.

Here we see the cause to the attacks on us and the Brazilians at Americans who prefer to use a healthful, home-made breakfast drink and incidentally keep the

money in America, rather than send the millions to Brazil and pay for an article that chemists class among the drugs and not among the foods.

Will the reader please remember, we never announce that coffee "hurts all people."

Some persons seem to have excessive vitality enough to use coffee, tobacco and whiskey for years and apparently be none the worse, but the number is small, and when a sensible man or woman finds an article acts harmfully they exercise some degree of intelligence by dropping it.

We quote again from the article: "These figures are paralyzing but correct, being taken from Leech's statistics, recognized as the most reliable."

This is one of the highest compliments ever paid to the level-headed, common sense of Americans who cut off about two hundred million pounds of coffee when they found by actual experiment (in the majority of cases, that the subtle

drug caffeine, in coffee, worked discomfort and varying forms of disease.

Some people haven't the character to stop a habit when they know it is killing them, but it is easy to shift from coffee to Postum for, when made according to directions, it comes to table a cup of beverage, neat brown color, which turns to rich golden brown when cream is added, and the taste is very like the milder grades of Old Gov't Java.

Postum is a veritable food drink and highly nourishing, containing all the parts of wheat carefully prepared to which is added about 10 per cent of New Orleans molasses, and that is absolutely all that Postum is made of.

Thousands of visitors to the pure food factories see the ingredients and how prepared. Every nook and corner is open for every visitor to carefully inspect. Crowds come daily and seem to enjoy it.

BLUES ARE VICTORS  
BY SLIGHT MARGIN

Browns are Defeated by Very Close Scores in Two Games Out of Three Last Night.

In a very close and exciting match the Blues won two out of three games from the Browns in the bowling series at Hockett's alleys last night. The first game went to the blues by twenty pins, but in the second event the Browns were ahead by 134 pins. Wolcott, Pelen and Grisdley each bowling 170 or above. The last game went to the blues by a single point. The Browns, although defeated, had the best of their opponents in the total number of pins for the match by 113.

The Maroons and Cardinals are scheduled for tonight. The results last night were:

RUSK LYCEUM HOLDS  
INTERESTING TRIAL

Korst and Bailey Fined by Judge Cunningham and McVicar Acquitted After Hard Battle of Attorneys.

In the Rusk Lyceum "Court" last evening, Donald Korst, Leslie Bailey and Garnet McVicar were found guilty of theft and fined fifteen cents each, with an additional ten cents from Korst for contempt of court, by Judge Cunningham.

The prisoners were accused of burgling Willie Sutherland from his home, of binding and carrying him to the country in an automobile and finally of stealing from him the three dollars of the Rusk's money which as treasurer he had in his possession. Detective Harold Mohr was the first to be called on the stand and he testified to having found that the Korst auto was out that evening and that Bailey and McVicar were with Don in the machine. The auto was described as one with no headlights and having an engine that would fire eighteen times out of twenty-three.

Thomas Pankow and Ralph Soultman were then called and they testified to having seen Korst at home in the cellar cracking nuts on the evening in question. Under the cross-examination of prosecuting attorney French, Garnet McVicar admitted that Korst was broke at the time and had been trying to borrow money. The fact that the money was found next day in Sutherland's pockets, proved that Korst did not take the money as he took a girl to hotel the next day for the football game and therefore could not have returned it.

At the conclusion of the attorneys' speeches, Korst and Bailey were found guilty and McVicar was let off. The entire trial was very exciting, and it was with bated breath that the crowd present waited for the verdict.

GRECIAN LECTURE  
MOST INTERESTING

Prof. T. L. Wright Delights Ladies of the Twentieth Century History Class With His Talk.

Under the auspices of the Twentieth Century History Class, Prof. T. L. Wright, of Beloit College, gave his first lecture on Grecian history Monday afternoon, in the science room of the high school. His subject was "Homer and the Odyssey" and it was illustrated with lantern slides made from photographs taken by Prof. Wright on a recent visit to Greece. The Twentieth Century class is studying Grecian history and Prof. Wright will give a series of lectures once a month to supplement their study.

Mounds of walrus tusks were recently unearthed by railroad engineers in California.

PRICE OF TURKEYS  
REPORTED AS LOWER

Prospect They Will be Cheaper This Thanksgiving Than For Ten Years Past.

According to the market report in a Chicago paper there is a partial cancellation for the Thanksgiving celebration who find their greatest joy of the day at the dinner table. There may be a cranberry famine, but the price of the main feature of the day, the turkey, will be low and the supply practically unlimited.

South Water street merchants were almost a unit yesterday in asserting that the outlook this year was the best in a decade. There is now a fair supply of turkeys in the market, although it is early, and if the weather becomes colder, so that the country buyers do not fear to lay in good stocks, such quantities will come in as to force the price down several cents a pound.

Dry weather in the late spring and early summer is the principal reason for a big supply of turkeys, dealers say. The young turkey is the most susceptible to fall weather of any domestic fowl.

Fred Johnson, poultry man with B. Aaron & Son, 56 West South Water street, said yesterday that turkeys should be in the market by Thanksgiving week "at old-time prices."

"We have them already," said Mr. Johnson. "The choice dressed stock is quoted at 17 and 18 cents a pound, and the medium and poorer grades are down to as low as 14 cents."

"From present indications there will be more turkeys in the market than for ten years. This was an ideal year for raising turkeys. The total price should be not more than 22 cents a pound Thanksgiving week, although unfavorable weather might send it up a cent or two."

Other dealers were hardly so enthusiastic as Mr. Johnson, but declared that there would be a good supply and that prices should be much lower than in recent years.

HOG MARKET SLOW;  
CATTLE ON DECLINE

Cattle Prices Slump as Much as Twenty-Five Cents On Some Grades.—Sheep Market Slow.

Chicago, Nov. 7.—The cattle market was weak and prices were lower than yesterday in some instances the decline amounting to twenty-five cents per hundred. The best beefs barely brought \$9.10. Hecophs were rather light, but this did not appear to have any effect on the market.

The hog market was slow following the rise of yesterday, and in many places there was a depression in prices. The sheep market was also slow with receipts fairly heavy. Quotations are as follows:

SURPRISE PARTY GIVEN  
MR. AND MRS. HERMAN SELCK

Thirty Neighbors and Friends of Calville Center Couple Help Them Celebrate Thirty-fifth Birthday.

Calville Center, Nov. 6.—About thirty of the neighbors and friends of Mr. Herman Selck gave him a surprise Saturday night, the occasion being his thirty-fifth birthday. The evening was pleasantly spent in social chat and music. A delicious luncheon was served. At a late hour the guests departed, wishing Herman many returns of the day.

The Hopsters' Union will meet Thursday afternoon with Mrs. Warren Andrews.

Mrs. A. E. Townsend and daughters, Eva and Ella, were Janesville shoppers Saturday. They returned via Evansville.

Mr. and Mrs. Glenn Clark and daughters were Evansville shoppers Friday.

Some of the farmers are quite enthused over the prospect that is on foot for a condensed milk factory in Footville.

The house on Mrs. Chase's place is completed and Mr. and Mrs. Louis Woodstock are nicely settled in their home again.

Larry Townsend and family were callers on our streets Sunday.

The Bennett Bros. are shredding corn in Center this week.

The weekly A. C. prayer meeting will be held Wednesday evening at the home of W. B. Andrews.

The E. H. S. students will enjoy a short vacation the last of the week as the teachers will go to a convention at Milwaukee Thursday and Friday.

Frank Chase and Dave Andrew were Janesville visitors Saturday.

W. B. Andrew attended a meeting Saturday night at Footville to discuss the condensed milk factory proposition.

## MYERS THEATRE

When people didn't know any other way, they said, "HAVE IT OUT!" when a tooth broke down.

NOW very few people talk that way.

Modern times has brought with it the public education that TEETH CAN BE SAVED.

I have tooth every day that will do good service TEN years from today. My prices I try to make REASONABLE.

### REASONS WHY

You should invest your surplus money in MORTGAGE LOANS and not in bond issues.

Millions of dollars in bonds have been repudiated.

Interest rates are too low for you to invest in bond issues.

Too much time is required to investigate the legality of bond issues.

In case of default on municipal bonds years are required to recover judgment.

If you are a citizen of the community you help to pay your own security.

If you buy a mortgage loan you own the property on one only condition—that the debt is paid when due.

In case of default you get your security in a short space of time, without further expense to you.

In case of default on the investment is direct and simple and is subject to your control.

**Stop That Cough in a Minute**

Would you give morphine or chloroform to your baby or take it yourself? Of course not. Yet most patent cough cures contain one or both. They stop a cough in a minute, which is dangerous. A cough should be cured internally by a healing lung, loosening the phlegm, throwing it out, which is done by coughing. Badger Cough Balsam does not contain morphine or chloroform. It is made by perspiration from bloodroot, lobelia, pine bark, wild cherry, etc. It cures a cough in a few days without filling the lungs with poisonous phlegm. The irritation is relieved, the lungs heal without danger of pneumonia. It's safe for children or old people. Get a bottle today for 25 cents. Badger Cough Balsam is made by Mr. Pfoning, our Graduate Pharmacist and Chemist, Badger Drug Co., Milwaukee and River streets.

## TERRIBLY SCALDED BY OVERTURNED SOUP

Foreign Workman, Struck in Chest by Drunken Comrade, Upsets Kettle in His Fall.

Struck in the chest by a fellow-workman who was returning home intoxicated, one of the foreign workmen living at the brick building house near the tracks at the foot of Jackson street, fell over against a cook-stove, upsetting a large kettle of hot soup over himself, and receiving burns which will probably incapacitate him for work for a month or more. His left arm, left side and the left portion of his back were so badly scalded that about three square feet of cuticle peeled off.

The accident happened about 10:30 o'clock; the railway watchman, whose station is but a short distance away, heard the screams of the injured man and telephoned the police station, and Dr. Charles Sutherland was called to attend the patient. No action will be taken against the man who caused the accident as he has agreed to help pay the patient's doctor bill, and did not wilfully try to do any harm.

## POEM ON FRIENDSHIP THAT IS EXCELLENT

Written by the Grand Patron of the Order of the Eastern Star.

The following poem, written by Durant C. Gile, Grand Patron of the Order of the Eastern Star, is a fine article and it is with pleasure the Gazette is able to reprint it.

We covert material comfort And the pleasures that money commands, But what would you give To have all these, and live In a palace—without having friends?

We rejoice in the prosperous present, And the blessings that High Heaven sends, In our gardens and flowers, In the deep rooted love of true friends.

Our hope may fade in dire trouble, While the sorrowing heart fairly roars, But the darkness and gloom Of even the tomb, Disappears—in the presence of friends.

So, here's to our friends ever faithful, On whose love each mortal depends; Who will prove true as gold, Bringing joys manifold To him who is blessed with good friends.

—Durant C. Gile.

## ASHLAND PRESS IN HANDS OF SHERIFF

Former Owners Seize Newspaper Now Controlled by Former Janesville Resident.

According to a dispatch in the Milwaukee papers today, Robert Knoff, a former Janesville resident, is in a way to lose his recently acquired interest in the Ashland Press, which he purchased two months ago from J. T. Hooper, who is the now superintendent of the State Institute for the Blind.

The dispatch is as follows: "Joseph M. Chapple & Co., former owners of the Ashland Daily Press, have ousted from ownership and possession of the plant R. E. Knoff, formerly city editor of the Madison Journal."

The Chapples sold the Press a year ago to J. T. Hooper, now superintendent of the school for the blind at Janesville, and Hooper sold it two months ago to Knoff. The Chapples had a mortgage on the plant because of nonpayment of notes and finally seized the property. The sheriff will put it up at sale on Nov. 18. Knoff claims that he has been losing money."

## CLINTON MAN SHOT BY UNSEEN HUNTER

John McGowan Struck in Face by Stray Bullet While Driving Into Town Saturday.

While driving along the Emerald Grove road near the best sugar factory Saturday morning, on his way home from Clinton, John McGowan was struck below the right eye by a stray bullet. No hunter was in sight and it is thought that the missile had come from some distance, or it would have been more destructive in its effect.

John McGowan who was with Mr. McGowan at the time of the accident, rushed him to Dr. Gibson's office where examination showed that although the bullet had lodged behind the eye, no serious injury had been done. It has not been discovered who fired the shot, and no one remembering having seen hunters in this vicinity at the time.

## At The Theatre

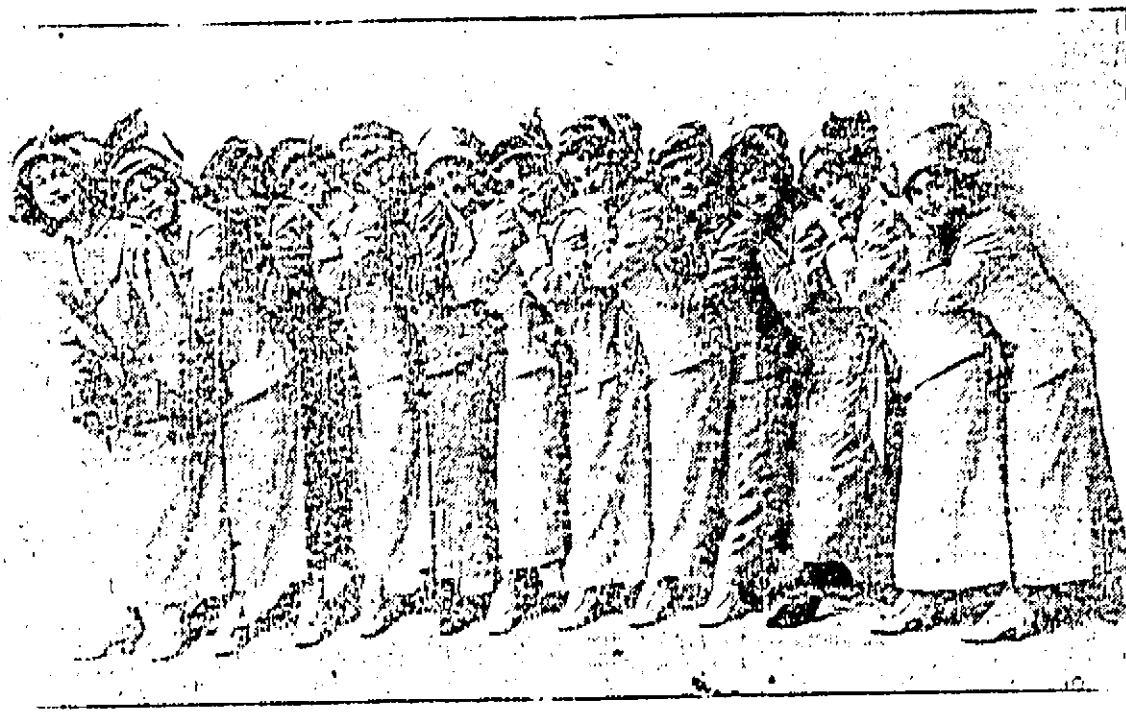

Sousa as an Author and Sportman. Sousa, in addition to conducting his band and composing marches and operas, is a frequent contributor to the magazines. His writings embrace all sorts of subjects, and one of his articles on trapshooting was a recent feature of the London "Sporting" magazine. On the sporting side he devoted to shooting and riding, and he also excels as a swimmer. He admits that one of his hardships is that his present contract will not allow him to ride a horse or take a gun in his hand while he is on his tour of the world. He was thrown from a horse about six years ago, when he was racing along a country road outside of Washington. Luckily he was not badly injured, but he had to cancel one of his tours, and

produced heretofore in the history of burnt cork. The name of Dockstader stands always for something new and original in minstrelsy, and the many lovers of this form of amusement will welcome the coming of Dockstader and his all star aggregation of tumblers. Nell O'Brien, the famous minstrel, is again one of the features of the show. Among the other well known artists are Bob Albright, Manuel Romala, "Happy" Naulty, Master Leo, Roy LaPearl, Henry Ho Cumer, Don Ferrandou and sixty other burnt cork artists. The day of the show, Roy LaPearl, the man with the biggest nasal voice in the world, will sing from atop the Myers Theatre Wednesday noon

over Joe Yeager gave the lad his first mount on Sydney J. Lave. He rode a season at Worth, Washington and Hawthorne, and then went to New Orleans for Hildreth and Repass. In the Spring of 1903 his parents took him with them to Africa; there the boy obtained his jockey license and he was at once engaged to ride for Colonel Seale a wealthy jeweler in Cape Town. His mount was a horse called Cross Guard and the first race was the Merchants Handicap at Johannesburg. As the jockeys rode past the Grand Stand on their way to the Post young Martyn created a veritable sensation. More than that, he was hoisted and cheered by the crowd; they had never before seen a rider using short leathers and a saddle up over the withers. It was the first time that the Todd Sloan style of riding was on the Continent; it was a mile and a quarter course and no one thought that the American had had a chance,

before had played the same piece at the same time. It shows that the public likes "Paid in Full" better than any other play, and can not get enough of it, for it is a conspicuous fact that on its fifth and sixth visits to cities its audiences have been larger each time. This fact of itself shows the tremendous hold the play has on public favor. "A sweeping success—a knock-out hit," is the way Munsey's magazine described it, while Everybody's called it, "the sensation of Broadway." Equally strong in praise has been every leading dramatic critic in this country. New York welcomed it several times after the two years' run had closed. All the five companies appeared on different occasions in New York; each as cordially received as the other, so that every organization now appearing

in the play can claim to be the Broadway cast. "Paid in Full" is a play of intense human interest. It clutches the sympathies. So vivid is it that the spectator seems to be looking upon reality rather than fiction. Its appeal is irresistible. The coming of this play is the most interesting theatrical event of the season, and the engagement will add to the marvelous record "Paid in Full" has made for American theatricals. Self-Evident. "They say she has never quarreled with her husband." "Then she must get up and close the windows herself every time it rains at night."—Detroit Free Press.

SCENE OF THE CHORUS WITH "MERRY MARY," AT THE MYERS THEATRE, TUESDAY, NOV. 7.

his managers thought it best that he should not take any chance on his present tour. On the return of Sousa and his band from Australia they will give a series of concerts on the Pacific Coast and in the Southwest. Their date here will be Saturday Nov. 18 and they will play at the Myers Theatre.

**Low Dockstader.**  
Low Dockstader and his Great Minstrels will be seen at Myers Theatre Wednesday Nov. 15.

This season's production will, it is claimed, outshine all previous efforts in minstrelsy, far surpassing anything

accompanied by Dockstader's band nor did any one want him to win except his employer and he was no more than lukewarm. However, he did back the boy for a small amount, but American grit and American methods won out, for Cross Guard romped home an easy winner. After the race the owner cashed his ticket and asked the bookie what he thought of the boy's riding. "Ow did he ride? W'y 'e didn't even know 'ow 'e 'ad 'is bloom-'in' knees around the bloom-'in' orse's 'ind."

From Jockey to Actor. Actors have been recruited from many professions, but few have started as did Eddie Martyn, the juvenile dancer and dancer of the "Merry Mary" company, which will begin at Myers Theatre tonight.

During the summer of 1901 a small boy spent his vacation around the old Janesville track. First he was "choro boy" for such riders and trainers as Buchanan, Colburn and Knapp. In a short while he was promoted to star in minstrelsy, far surpassing anything

accompanied by Dockstader's band nor did any one want him to win except his employer and he was no more than lukewarm. However, he did back the boy for a small amount, but American grit and American methods won out, for Cross Guard romped home an easy winner. After the race the owner cashed his ticket and asked the bookie what he thought of the boy's riding. "Ow did he ride? W'y 'e didn't even know 'ow 'e 'ad 'is bloom-'in' knees around the bloom-'in' orse's 'ind."

The Great American Play "Paid in Full."

At the Myers Theatre Saturday, Nov. 11, matinee and evening, C. S. Primrose will present Eugene Walter's "Paid in Full," a play of contemporary American life, by everybody considered the greatest and the most entertaining drama produced in this country in years, and beyond all question the most popular. No other play has ever earned such a reputation as "Paid in Full" has attained. Its success is truly sensational. It made such a tremendous hit in New York that it ran there for two years, the only play not musical comedy ever to remain all summer on Broadway. It is the reigning success everywhere that it has been in New York. Five companies played it all last season. The same are appearing in it now. This is a greater number than ever

# PRACTICAL AND VALUABLE AWARDS WILL BE GIVEN TO LADIES OF SOUTHERN WIS.

AUTOMOBILE, PIANOS, DIAMONDS SCHOLARSHIPS, WATCHES AND CASH PROVE ATTRACTIVE.

## \$2500 IN AWARDS--NO LOSERS

NEW NOMINATIONS STILL RECEIVED--CONSIDER THIS GREAT OFFER CAREFULLY--YOUR OPPORTUNITY.

In a few days the interest of all of this section of the state will undoubtedly center on the prize campaign, now being conducted by The Gazette. This is attested by the fact that every section of the territory embraced was represented by one or more ladies in last Saturday's first publication of the list of candidates. Many inquiries are being received regarding this great event and each lady who will undoubtedly organize with her friends to win one of the valuable prizes to be given.

Overland automobile, Schiller pianos, diamonds, scholarships, and watches do not grow on trees, still it is about the same when a lady is presented one of these prizes by the votes of her friends.

Each lady should display her amount of enthusiasm and see that her friends are interested and kept interested. We all like to help the person that helps themselves. The votes are absolutely free to the subscribers, but unless a subscriber and reader does not become interested until their attention is directed in the right way. Many questions are being asked and tomorrow's issue. Remember, every nomination blank counts 25 votes and after a candidate is once nominated their name appearing in the paper, all that is necessary on any of the blanks is her name.

A number of new nominations have been added since last evening and those desiring to enter this event should see that their names are sent in at once.

How the Voting is Done. Any person who desires to vote, in this prize campaign, may do so by properly filling out and voting the coupon and nomination blanks that appear in each issue of The Gazette, but the coupons are good only ten days from the date of publication, and will not be counted after the date printed on them.

The nomination blanks may be voted at any time.

The special vote ballots, which are issued for every subscription payment may be cast any time during the campaign, and they will count their full value for the candidate whose names they bear.

People living in one district may vote for a candidate that lives in another; they are not confined to their own particular district.

The Overland Touring Car was purchased of Skew & Davis; the Schiller pianos of A. V. Lyle; the diamonds of Hall & Sayles; the scholarships are good for 24 weeks of instruction at the Janesville or Beloit Business College in the course that the winner might choose. The solid gold watches were purchased of G. W. Grant & Co. The prizes will soon be on display. Watch for them.

Open Evenings. For the benefit of those who can not call during regular office hours, the campaign department will remain open until 8 p. m. each week day evening.

Subscription Books. Candidates and their friends are privileged to accept payments on subscriptions and in order that they may receipt for such payments we will provide them with a receipt book if they will inform the campaign department.

## STRONG LECTURE BY AN EMINENT SPEAKER

WILLIAM R. RATHVON OF BOSTON  
TALKS ON CHRISTIAN  
SCIENCE.

## INTERESTING SUBJECT

Throws New Light Upon Old Truths  
In Address at the Myers Theatre  
Last Evening.

"Christian Science, the New Light Upon Old Truths," was the title of a most interesting and instructive address at the Myers theatre last evening, William R. Rathvon, a member of the board of lecturers of the First Church of Christ Scientists of Boston, Mass., was the speaker, and he handled his subject in a most interesting manner. In opening he said:

"Of the multitude of men and women who are indebted to Christian Science, the great majority were drawn to it under the lash of disease or bodily deficiency. For many it was their last resort, all else having proved empty, fruitless, disappointing. Others there are who, witnessing in their own families and among their own friends the pitiful failure of drugs, and the pitiless trail of the knife preferred to trust their restoration to God rather than to the mindless drug or the cruel steel. The sanctarian, the operation table, the very grave itself have been robbed of their destined subjects in such numbers as to force even from unfriendly lips the reluctant admission that 'Christian Science does heal the sick.'"

"The basis of Christian Science healing is the infinitude and omnipotence of mind, spirit, God."

"If personal evidence of the efficacy of Christian Science in healing every class of disease should be desired, let me call your attention to this fact. Since 1888 there have been published in each issue of the Christian Science official periodicals detailed personal accounts of the healing of all manner of diseases through mind alone. In this long list may be found cases of every form of functional and organic disorder that materia medica claims to have diagnosed. Many of these people at one time held Christian Science in disdain and tried it only after the healing systems of their choice had utterly failed to give them permanent relief. Their names and addresses can be had for the asking, as each particular case has been examined for authenticity and accuracy before publication. They are from reputable citizens, your neighbors and mine, and such an array of credible testimony is not to be swept aside by a professional sneer."

**The Two Books.**  
"Christian Science has but one text-book, 'Science and Health with Key to the Scriptures,' by Mary Baker Eddy. It is not a book to be quickly absorbed or hastily thumbled over as one would a shallow novel. Nor is it to be approached with bias or prejudice. If one would appropriate its riches; but its truths may be proved and in turn imparted by the child or sage who turns its leaves with an open mind. Only the open flower it is that catches the dew and yields it honey to the bee."

"Saint and sinner meet on common ground in the pages of this remarkable book and though it starts all alike at the bottom of the ladder it always lifts up and never drags down. Time and again its covers have been rudely torn open by unfriendly hands in search of phrases to wrench from their context and with which to smite their men of straw, yet neither force nor deceit, the blundering of the boor or the cunning of the fox can avail to distort or suppress its tidings of comfort and joy."

"Christian Science brings the truth

to human comprehension, gives freedom from whatever enslaves and thus bestows mental, moral and physical liberty. In the process of liberation it lifts out certain pernicious practices and propensities, generally regarded as harmless, but which are to be shunned as allies of evil. It shows us that we have indulged in moods and inclinations that we believed were good. If not, commendable, but were in reality neither who nor harmless. We find we have been warming in the incubator of our favor, the eggs of serpents that we believed belonged to doves. Perhaps the most common of these disease inflicting habits is discouragement. I daresay we have all been on intimate terms with it one time or another and while we have never found it cheerful company, we have not looked upon it as a sinister visitor. Yet that is just what Christian Science shows it to be.

"Discouragement wears the invisible livery of evil and is constantly and consistently working for its master. It is always pulling down and never building up."

"Did you ever know anyone to accomplish anything while in the grip of discouragement? It paralyzes effort, stupifies thought and dissipates purpose."

"The discouraged man is as powerless in the hands of evil as a batch of dough in the hands of the baker. He has no more backbone than a putty doll. But unlike either dough or putty he neither sags nor a long or restores an unwieldy himself. He is neither useful nor ornamental."

**Light and Darkness.**

In concluding, the speaker said: "I have thus far spoken more of the results of Christian Science than of its methods. For the latter I would have you consult the pages of its text-book, 'Science and Health with Key to the Scriptures,' by Mary Baker Eddy. You will not lay it down with disappointment if you take it up with sincerity."

"But that you may carry away with you tonight some elementary precept to test for yourselves, I would place before you this simple fact. 'The Christian Science method of getting rid of things that are wrong is to introduce things that are right. This is not fighting evil but destroying it. It has been proven in millions of instances that a wrong thought which is the father of a wrong action will invariably vanish into nothingness if you will but introduce a right thought in its place. Good destroys evil as surely and as quickly as light destroys darkness. Remember that for you will find it helpful if you are ever disposed to try Christian Science for yourselves, if you will associate in your thought

good with light, and evil with darkness you will have before you a flash-light glimpse of the impenitence of evil in the presence of the good. Not all the darkness in the universe can extinguish the light of one tiny lamp. Wherever it goes, it chooses away darkness, which is always without power to move, or even to be, in the presence of light. So with the light of good and the darkness of evil."

"The comparison is a good one, but it is not mine. You will find it many times in the pages of your Bible. Remember then, if you will, that the Christian Science method of banishing evil—darkness—is to bring in the light—good. If you were to try it for a single day you would be surprised to find what a new sort of day you would be giving to yourselves. Every time you find yourself thinking unkindly about your neighbor, bring in a good thought about him. It will help him and it will help you."

"Every time your thought drops to the level of the beast lift it as near the stars as you can raise it. If thoughts unclean, unjust, dishonorable are there, bring in something of purity, of justice, of nobility. When you have done your best in this line of noble endeavor, you will have accomplished much. You have taken a step, a little one to be sure, but it leads in the direction of the understanding of God—the knowledge of Him, whom to know is life eternal."

## JANESVILLE MAN IS SUSPECTED OF THEFT

Milwaukee Police Take Into Custody  
Man Selling Valuables Who Says  
He Came From This City.

Chief of Police Appleby was informed yesterday by a telephone message from Chief of Police John T. Jannsen of Milwaukee, that a man giving the name of Walter Dellaheld, and professing to come from this city, was held in custody. The man is described as being twenty-eight years of age; five feet, ten or eleven inches tall; slim build; and having a smooth face and dark hair. In his possession were found a lady's gold watch, hunting case, Hampton movement; and a short link chain. He was trying to sell these when arrested. The police of this city have no knowledge of the man, and up to the present time have not been able to find any one who has misused the articles mentioned.

## OFFICERS ELECTED BY SCHUMANN CLUB

Mrs. J. F. Sweeney Named President  
at First Meeting of Season at  
Library Hall This Morning.

The Schumann club held its first regular meeting of the season this morning at Library hall at half past ten o'clock. This club was organized to create in its members a better understanding and appreciation of music and, up to this time, has been limited to a membership of twenty. As many have signified a desire to belong this year, however, and with the added comfort of a larger room to meet in, it is proposed to enlarge the membership.

This year the regular meetings will be given up to the study of the history of music with papers and musical illustrations. It is also proposed to hold "open meetings" with especially prepared programs given by the members and outside talent.

This morning most interesting papers, showing careful research, were read by Miss Burch, Mrs. Sweeney, Mrs. Sherer and Miss Merrill. The second part was given over to Mrs. Zoe Pearl Park and Miss Louise Merrill, who gave two solos, each, to the great pleasure of their listeners. Officers were elected as follows:

President—Mrs. J. F. Sweeney.  
Vice President—Mrs. W. T. Sherer.  
Secretary and Treasurer—Miss Louise Merrill.

The next meeting will be held in two weeks and these topics considered:

1. The Rise of Secular Music. Mrs. Malcolm Mount.  
2. Miracle Plays. Mrs. John Rexford.  
3. Rise of the Netherland School.

## Why We Handle The FAVORITE

Being a Story of How We Were Convinced

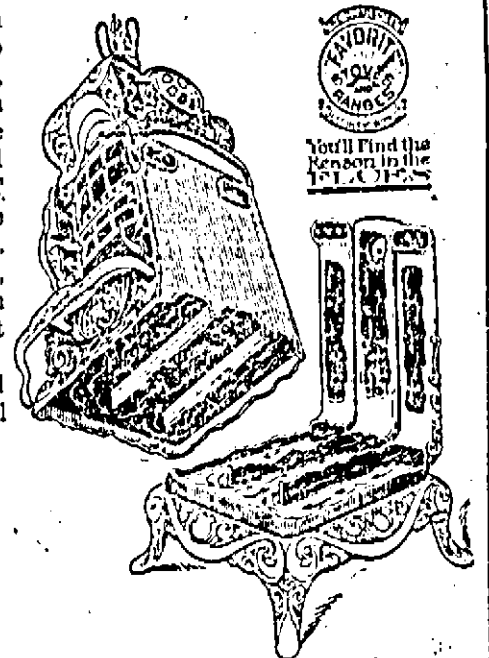

First, we were attracted by the handsome appearance of the Favorite, but we didn't decide to handle it for this reason alone, although we decided it was the most handsome base burner on the market.

We wanted a better reason than an attractive looking stove, so we looked it over thoroughly, comparing it point by point with other base burners, and this is what we found:

That the material from which it is made is all of the highest grades—the doors, mica frames and joints being absolutely air and paper tight.

We were told the Favorite produced the most satisfactory results with about half as much coal as other base burners. We discovered this to be true. We found the reason to be in its Triple Exposed Flues.

The sectional cut herewith explains these flues better than we can in words. The heat passes from the fire pot into the two outside down flues, across the bottom of the stove, under the ash pan, where it enters the central flue. It then passes back over the bottom and up the central flue to the chimney. Just think of this great radiating surface, and it is more than doubled, because the flues are SET OUT from the back of the stove. The flues therefore radiate from all sides, and the back of the stove radiates heat, also. This feature alone places the Favorite in a class by itself, making it the best and most economical heating stove in existence. But other features of its construction must not be overlooked. Would like to tell you all about them. Do not put off buying your heating stove until the cold days come. Come and see us now, and our Favorite will be your favorite too.

## TAKES ADVANTAGE OF OPPORTUNITY GIVEN

Communication on the Commission Form of Government.

This morning the following letter was received at the Gazette office in answer to a request for communication, pro and con, on the subject of Janesville adopting the Commission form of government.

The article is not signed, but was written by a prominent young business man, and is very much to the point. The columns of the Gazette are open to all such communication, and they will be published as this one is, without comment or name if requested.

November 6, 1911.  
Editor of the Gazette:  
Dear Sir:—

Your editorial in this evening's Gazette, inviting arguments for and against Commission Form of Government, is most commendable, and every voting man of the city of Janesville should take advantage of this opportunity.

"In a few words—Commission Government is the centralization of administrative power and responsibility. The action of our council last Monday night at their meeting should be considered a public disgrace to any community, and should set any reasonably minded man thinking. One must remember that such action not only causes local comment, but also that bad news travels fast and notions of this kind are not a very good advertisement for our city.

"Commission Government by three commissioners devoting their entire time to the management of local affairs, no matter how poor they may be, must be better than an administration by a Mayor, whose hands are tied, and a council of ten men whose attention to public affairs is a matter of secondary consideration.

"Our most successful corporations today have a few men who decide and manage their policy and affairs. Why not apply the same principle to the management of a city whose business is far more important than that of a corporation, as it means the welfare of an entire community.

"The question of government by commission is the salvation of any city, provided the people make it so. At the present time this form of government is in its infancy and is bound to grow. The application of scientific business methods must take precedence over the form in vogue at the present time. The adoration from a ward are looking after the interests of their constituents and not the community at large.

"This question and your action are worthy of the utmost consideration.

Yours very truly,

UNCLE WALT The Poet Philosopher Copyright, 1909, by George Matthew Adams BY WALT MASON

Metinks that wrestling might be made our threst sport, already, still, if athletes working at the trade rolled along on strength and skill. There's nothing finer than to

THE WRESTLERS see two mighty men in stern embrace, each striving for the victory, their movements fraught with tiger's grace. There's nothing finer than this game when it is played by sportsmen true, when neither tries his toe to lame, or push a flat his features through. I watched two gladiators sweat, upon the mat, while sportsmen raved; alas, my friends, I shudder yet, when thinking how those men behaved! One gave the other's leg a twist until it like a corkscrew reeled; the latter bent the first one's wrist until he threw a fit and screamed. Each tried to gouge the other's eyes and jolt him rudely in the nose, and each seemed to think it good and wise to make the other man a wreck. This game would certainly be grand, a game for heroes brave and bold, if all the butcher plays were banned, and wrestlers wrestled as of old.

# MISS MINERVA and WILLIAM GREEN HILL

By FRANCES BOYD CALHOUN

CHAPTER XI.

Now Riddle Me This.

The children were sitting in the living room, waiting for Santa Claus. A little girl whose mother was spending the day at Miss Minerva's, was with them.

"Don't you all wish Santa Claus had his birthday right now 'stead o' waiting till Christmas to hang up our stockings?" asked Frances.

"Christmas isn't Santa Claus' birthday," corrected Lina. "God was born on Christmas and that's the reason we hang up our stockings."

"Yes; it's old Santa's birthday, too," argued Jimmy, "because it's in the Bible and Miss Cecilia explained it to me and she 'bout the dandiest 'splainer they is."

"Which you all like the best: God or Doctor Sanford or Santa Claus?" asked Florence.

"I like God 'nother slight better 'n I do anybody," declared Jimmy, "because he so forgivingome. He's 'bout the forgivingest person they is. Santa Claus can't let you go to Heaven nor Doctor Sanford neither, nor our papas and mammas nor Miss Minerva. Now wouldn't he be in a pretty fix if we had to 'pend on Doctor Sanford or Santa Claus to forgive you every time you run off or fall down and bust your breeches. Naw; gimme God ev'ry time."

"I like Santa Claus the best," declared Frances, "because he isn't 'r ever getting in your way, and hasn't any censor o' like Doctor Sanford, and you don't 'r ever have to be telling him you're sorry you did what you did, and he hasn't all time got one eye on you either, like God, and got to follow you 'round. And Santa Claus don't all time say, 'Shut your eyes and open your mouth,' like Doctor Sanford, and 'poke out your tongue,' like Doctor Sanford, and 'I like Doctor Sanford the best,' said Florence, "because he's my uncle, and God and Santa Claus ain't kin to me."

"And the Bible says, 'Love your kin-folks,' Miss Cecilia 'splained—"

"I use to like my Uncle Doc' heap better'n what I do now," went on the little girl, heedless of Jimmy's interruption, "till I went with daddy to his office one day. And what you reckon that man's got in his office? He 's got a dead man 'bout no meat nor clo'es on, nothing a tall but just his bones."

"Was he a hant?" asked Billy. "I like the Major best—he's got meat on."

"Naw; he didn't have no meat on—just bones," was the reply.

"No meat on; no meat on!" chirruped Billy, glad of the rhyme.

"Was he a angel, Florence?" questioned Frances.

"Naw; he didn't have no harp and no wings neither."

"It must have been a skeleton," explained Lina.

"And Uncle Doc' just keep that poor man there and won't let him go to Heaven where dead folks 'blongs."

"I spoe' he wasn't a good man 'fore he died and got to go to the bad place," suggested Frances.

"I'll betcher he never asked God to forgive him when he felved his papa and sassed his ma'en,"—this

"I don't see no sense a tall in that," argued Jimmy, "thout some bad little boys drowned 'em."

"Tabby was a cat," explained the other boy, "and she had four kittens; and Stillshoe was a little girl, and she didn't have no kittens 't all."

"What's this," asked Jimmy: "A man rode 'cross a bridge and Fido walked?" Had a little dog name 'Fido'."

"You didn't ask that right, Jimmy," said Lina, "you always get things wrong. The riddle is, 'A man rode across the bridge and Yet he walked,' and the answer is, 'He had a little dog named Yet who walked across the bridge.'"

"Well, I'd 'nother slight rather have a little dog name 'Fido,' declared Jimmy, "I little dog name 'Yet' and a little girl name 'Stillshoe' ain't got no sense a tall to it."

"Why should a hangman wear suspenders?" asked Lina. "I'll bet nobody can answer that."

"To keep his breeches from falling off," triumphantly answered Frances.

"No, you goose, a hangman should wear suspenders so that he'd always have a gallow's handy."

CHAPTER XII.

In the House of the Lord.

It was a beautiful Sunday morning. The pulpit of the Methodist Church was not occupied by its regular pastor, Brother Johnson. Instead, a traveling minister, collecting funds for a church orphanage in Memphis, was the speaker for the day. Miss Minerva rarely missed a service in her own church. She was always on hand at the Love Feast and the Missionary Rally and gave liberally of her means to every cause. She was sitting in her own pew between Billy and Jimmy, Mr. and Mrs. Garner having remained at home. Across the aisle from her sat Frances Black, between her father and mother; two pews in front of her were Mr. and Mrs. Hamilton, with Lina on the outside next the aisle. The good Major was there, too; it was the only place he could depend upon for seeing Miss Minerva.

The preacher, after an earnest and eloquent discourse from the text, "He will remember the fatherless," closed the big Bible with a bang calculated to wake up any who might be sleeping. He came down from the pulpit and stood close to his hearers as he made his last pathetic appeal.

"My own heart," said he, "goes out to every orphan child, for in the yellow fever epidemic of '78, when but two years old, I lost both father and mother. If there are any little orphan children here today, I should be glad if they would come up to the front and shake hands with me."

Now Miss Minerva always faithfully responded to every proposal made by a preacher; it was a part of her religious conviction. At revivals she was ever a shining, if solemn and austere, light. When a minister called for all those who wanted to go to Heaven to rise, she was always the first one on her feet. If he asked to see the raised hands of those who were members of the church at the tender age of ten years, Miss Minerva's thin, long arm gave a prompt response. Once when a celebrated evangelist was holding a big protracted meeting under canvas in the town and had asked those who had read the book of Hosea to stand up, Miss Minerva on one side of the big tent and her devoted lover on the other side were among the few who had risen to their

feet. "She had read the good book from cover to cover, from Genesis to Revelation over and over so she thought she had read Hosea a score of times.

So now, when the preacher called for little orphans to come forward, she leaned down and whispered to her nephew, "Go up to the front, William, and shake hands with the nice kind preacher."

"What for?" he asked. "I don't want to go up there; ev'body here'll look right at me."

"Are there no little orphans here?" the minister was saying. "I want to shake the hand of any little child who has had the misfortune to lose its parents."

"Go on, William," commanded his aunt. "Go shake hands with the preacher."

The little boy again demurred but, Miss Minerva insisting, he obediently slipped by her and by his chum. Walking gracefully and jauntily up the aisle to the spot where the lecturer was standing by a broad table, he held out his slim, little hand.

Jimmy looked at these proceedings of Billy's in astonishment, not comprehending at all. He was rather indignant that the older boy had not confided in him and invited his participation.

But Jimmy was not the one to sit calmly by and be ignored when there was anything doing, so he slid awkwardly from the bench before Miss Minerva knew what he was up to. Signaling Frances to follow, he swaggered pompously behind Billy and he, too, held out a short, fat hand to the minister.

(To be continued.)

Supreme in Her Line.

"When it comes to making a lining for a nest," softly quipped the elder duck, "I've got it down line."

Very thin sheets of the metal aluminum are now used for wall covering in place of paper.

AVOID HARSH DRUGS

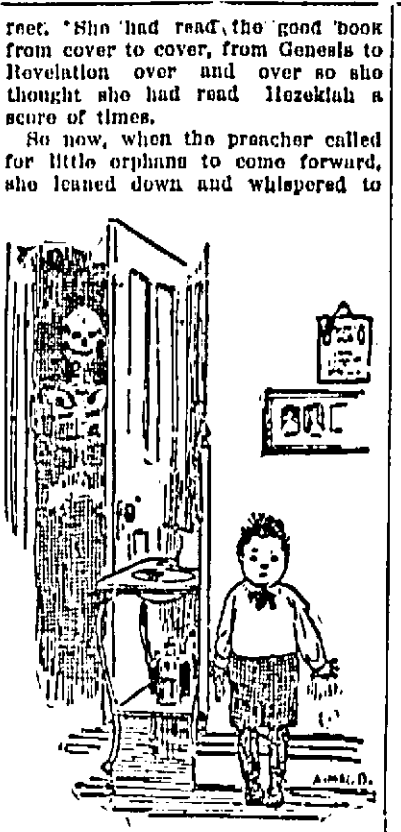

Many Cathartics Tend to Cause Injury to the Bowels.

If you are subject to constipation, you should avoid strong drugs and cathartics. They only give temporary relief and their reaction is harmful and sometimes more annoying than constipation. They in no way effect a cure and their tendency is to weaken the already weak organs with which they come in contact.

We honestly believe that we have the best constipation treatment ever devised. Our faith in it is so strong that we sell it on the positive guarantee that it shall not cost the user a cent if it does not give entire satisfaction and completely remedy constipation. This preparation is called Small Ordinaries. These are prompt, soothing, and most effective in action, they are made of a recent chemical discovery. Their principal ingredient is odorless, tasteless, and colorless. Combined with other well-known ingredients, long established for their usefulness in the treatment of constipation, it forms a tablet which is eaten just like candy. They may be taken at any time, either day or night, without fear of their causing any inconvenience whatever. They do not grip, purge, nor cause nausea. They act without causing any pain or excessive looseness of the bowels. They are ideal for children, weak, delicate persons, and aged people, as well as for the most hearty person.

They come in three size packages, 12 tablets, 10 cent; 36 tablets, 25 cent; 80 tablets, 50 cents. Remember, you can obtain them only at our store. Call here and talk it over.

STATUE OF ROBERT J. INGERSOLL

Unveiling statue of Robert J. Ingersoll.

A monument to the memory of Col. Robert J. Ingersoll, one of Peoria's greatest sons, a statue beautifully executed, was unveiled in Glen Oak Park, Peoria, Saturday, Oct. 28th. Its conception, simple in detail, is a fitting memorial to the great man whose life and words have done so much to enhance the fame of the city in which for the greater part of his life he made his home.

Titanic Tolstol.

Everything in Tolstol's character, an eminent Russian writer says, attained Titanic proportions. "As a drinker he absorbed fantastic quantities of liquor. As a gambler, he terrified his partners by the boldness of his play. As a soldier he advanced gayly to Hattin 4, the bastion of death, at Sevastopol, and there he made dying men laugh at his witty sayings. He surpassed every one by his prodigious activity in sport as well as in literature."

Made a Good Job.

Minerva had just sprung from the brow of Jove. "I always had a good head for figures," he cried. Herewith he eyed the classic outlines approvingly.

DOCTORS SAID HE WOULD DIE.

A Friend's Advice Saves Life.

I wish to speak of the wonderful cure that I have received from your noted Swamp-Root, the great kidney and bladder cure. Last summer I was taken with severe pains in my back and sides. I could not breathe without difficulty. I tried all the different doctors from far and near, but they said it was no use to doctor as I would die anyway. I was at the end of my rope and was so miserable with pain and the thought that I must die that words cannot tell how I felt. One day a friend told me of the wonderful help she had received from Dr. Kilmer's Swamp-Root. She gave me one of your pamphlets which I read and determined to try Swamp-Root. After taking half a bottle I felt better. Have now taken ten bottles and am well as I ever was, thanks to Swamp-Root. I wish to tell all suffering people that have kidney, liver or bladder trouble, that Dr. Kilmer's Swamp-Root is the best medicine on the market.

All persons doubting this statement can write to me and I will answer them directly.
